

Master of Science in Nursing

Dear Nursing Professional:

We are pleased to offer a Master of Science in Nursing program with two separate specializations:

1. Nursing Education

This specialty provides nurses with essential knowledge in curricular design and instructional experiences to facilitate the education of healthcare clients, nursing staff, and future nurses.

2. Nursing Leadership and Administration

This specialty provides nurses with knowledge in organizational management and leadership skills to positively impact the quality and efficiency of patient care within healthcare and community organizations.
